

Quality policy

We are committed to quality and to continual improvement of the quality management system.

We see our customers as the goal of all efforts and we are committed to satisfy all applicable requirements.

We see as the most important prerequisite innovative and efficient employees who think and act according to our quality objectives.

We have recognized that the principle of error prevention is a key success factor for a stable and reliable quality of our products.

We pay attention to a careful and responsible approach to all available resources.

We ensure that all the necessary health and safety measures are in place and are applied.

We achieve our goals together with competent partners.

We are looking at the respective industry leader regarding the determination of our quality standards.

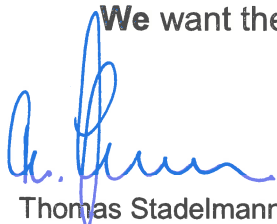

We are committed to implementing the quality policy by complying with the following quality objectives:

We want to be the best supplier for our customers.

We want to employ the best staff.

We want to produce the best products.

We want the best suppliers as partners.
