

## Information Security Policy

Information security is an important goal for Motherson DRSC and part of our commitment to our customers and the law. We will provide the means necessary to achieve this goal.

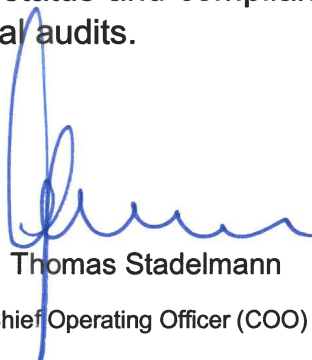

We are in full compliance with all legal requirements and we will protect internal company know-how and intellectual property under any circumstances. We are aware that measures to ensure such protection are vital for our customers and us.

Information security is a task that each and every employee of Motherson DRSC shares. We require and promote active involvement and offer regular security training courses.

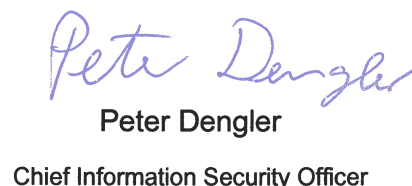

We classify and protect all information of Motherson DRSC adequately and as forcefully as needed.

We identify information security risks for our assets and remove potential risks with appropriate measures.

We continuously improve our information security management system and review its status and compliance with requirements by way of regular reviews and internal audits.

A blue ink signature of Thomas Stadelmann, consisting of a large, stylized initial 'T' followed by a series of connected loops and a long horizontal stroke.

Thomas Stadelmann  
Chief Operating Officer (COO)
